06:16:21 From Maka Suarez : Do you know if there's an essay description of each of these scales?

06:47:21 From Maka Suarez : Feel free to correct/add anything that's
in there
06:47:28 From Briana Leone : Thank you Maka!
06:48:30 From Nadine Tanio : Do you have to apply for membership in a
group separately in order to assign content to a group?
06:49:15 From Tim Schutz : @Nadine: yes
06:50:15 From Ali Kenner : @amyK you can also find it through the
'Discover' feature.
06:51:41 From Maka Suarez : For creating a new tag, do you just write
it on the tag box?
06:51:53 From Tim Schutz : yes!
06:51:56 From Maka Suarez : Thanks!
06:55:19 From Michael Fortun : Maka — for more on the "strata" see
https://worldpece.org/content/thinking-across-strata
06:55:43 From Maka Suarez : Nice! Thanks Mike :)
07:01:50 From Tim Schutz : Since James' artifact didn't know the
"creator", here's an example of an image by a national lab: https://
disaster-sts-network.org/content/water-levels-measured-near-weldon-
spring-quarry
07:02:07 From Tim Schutz : If you click on the creator, you can see
all artifacts associated with them
07:02:44 From Tim Schutz : (Like a tag, essentially)
07:03:17 From Prerna Srigyan : the elements within an existing
timeline essay can be shown through the "edit" function as well
07:12:32 From joshua Moses : Yes! That would be helpful
07:12:46 From Vinisha Basnet : I have a question. How do people get
assign to groups?
07:12:54 From Tim Schutz : You can request access

07:13:08 From Tim Schutz : https://disaster-sts-network.org/content/transnational-sts-covid-19-project-0
07:13:25 From Vinisha Basnet : ok thank you!
07:13:32 From Tim Schutz : See the "request group membership" button on the left :)
07:14:12 From Nadine Tanio : One question about timeline. If you want to include a bibliography would you add it in the timeline or link to a bibliography outside the timeline?
07:17:11 From Tim Schutz : I would link outside of it.. but sounds interesting to do it within
07:17:22 From Tim Schutz : Depends on what you want to visualize I think!
07:31:23 From Lina Franken : Where do i create the Project specific questions that are not public available (if I got it right)?
07:37:55 From Maka Suarez : Thank you so much for this long tutorial!! It has been really helpful for me! :D
07:38:20 From amandawindle : Thank you. Really helpful.
07:38:31 From Tim Schutz : @Amanda: I added a note to the restricted artifact http://centerforethnography.org/content/pece-presentations/essay
07:38:41 From amandawindle : Thanks Tim
07:38:53 From Vinisha Basnet : Thank you!
07:39:40 From amandawindle : @ Tim: It was the Under the Dome essay.
07:39:50 From Tim Schutz : Ok good
07:40:06 From Tim Schutz : I moved it down — it was indeed the second artifact before — not a good start haha
07:41:25 From Ali Kenner : A number of folks in the EVL were very much wanting to publish their final PECE essay… and had the option to do so…
